

SIMPLIFIED WORKFLOW

OPTIMIZE THE DIGITAL WORKFLOW BETWEEN DENTAL LABS AND YOUR PRACTICE

Join Dr. Jonathan Ferencz, Lee Culp and Dr. Lida Swann as they discuss the many efficiencies of treatment planning through an effective digital workflow between the dentists practice and the dental laboratory.

- Scanning & file transfer to laboratory
- Tooth preparation & tissue management
- Multi-unit/full arch scanning including orthodontics
- Dental implant case planning utilizing 3D images & intraoral scans
- Design of surgical guide and implant abutments

Learn to achieve improved workflow and efficiencies, increased consistency of fit, contacts and occlusion, along with reduced post-cementation sensitivity with your patients. Having these outstanding esthetics in your practice will greatly enhance your patients experience and increase your potential for new business.

3Shape Communicate/DDX Enabled

3Shape Communicate: Share, Communicate and Interact. Share impressions, design images, 3D previews of proposed designs, suggested margin lines, and questions or comments. Access cases and communicate anywhere and anytime - directly from your TRIOS® cart, through a PC, tablet, smart phone, in the clinic or on the road.

Dental System TRIOS

Dental System TRIOS: 3Shape Dental System™ is known throughout the dental industry as the most powerful CAD/CAM design system in the world. Features include auto-crown functionality for increasing productivity, new powerful user experience, easily determine the margin line using TRIOS® HD photos and much more.
